

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

## LANGUAGE ARTS

Strand	Sub-Strand	Standards	Benchmarks
<b>Reading and Literature</b>	<b>A. Word Recognition, Analysis, and Fluency</b>	The student will decode unfamiliar words using phonetic and structural analysis and will read with fluency and expression.	<ol style="list-style-type: none"> <li>1. Read unfamiliar complex and multi-syllabic words using advanced phonetic and structural analysis in grade-appropriate text.</li> <li>2. Read aloud narrative and expository text with fluency, accuracy, and appropriate pacing, intonation and expression.</li> </ol>
	<b>B. Vocabulary Expansion</b>	The student will use a variety of strategies to expand reading, listening and speaking vocabularies.	<ol style="list-style-type: none"> <li>1. Acquire, understand and use new vocabulary through explicit instruction and independent reading.</li> <li>2. Identify and understand root words, derivations, antonyms, synonyms, idioms, homonyms and multiple-meaning words to determine word meanings and to comprehend texts.</li> <li>3. Use dictionaries or glossaries to find the meaning of new words.</li> <li>4. Use context and word structure to determine word meanings.</li> <li>5. Use knowledge of prefixes and suffixes to determine the meaning of unknown words.</li> </ol>
	<b>C. Comprehension</b>	The student will understand the meaning of texts, using a variety of strategies, and will demonstrate literal, interpretive, inferential and evaluative comprehension.	<ol style="list-style-type: none"> <li>1. Read aloud grade-appropriate text (that has not been previewed) with accuracy and comprehension.</li> <li>2. Recall and use prior learning and preview text to prepare for reading.</li> <li>3. Generate and answer literal, inferential, interpretive and evaluative questions about what is read to demonstrate understanding.</li> <li>4. Summarize and paraphrase what is read.</li> <li>5. Infer and identify main idea and determine relevant details in non-fiction text.</li> <li>6. Distinguish fact from opinion, determine cause and effect, and draw conclusions.</li> <li>7. Demonstrate relationships between ideas or events in the texts using graphic organizers.</li> <li>8. Monitor comprehension, notice when reading breaks down and use strategies to self-correct.</li> <li>9. Follow multiple-step written instructions.</li> <li>10. Compare and contrast information on the same topic from two sources.</li> </ol>

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

Strand	Sub-Strand	Standards	Benchmarks
<b>Reading and Literature</b>	<b>D. Literature</b>	The student will actively engage in the reading process and read, understand, respond to, analyze, interpret, evaluate and appreciate a wide variety of fiction, poetic and nonfiction texts.	<ol style="list-style-type: none"> <li>1. Read and respond to a variety of high quality, traditional, classical and contemporary literary works specific to America, as well as significant works from other countries.</li> <li>2. Identify, respond to, and compare and contrast the literary elements of characterization, plot, setting and theme.</li> <li>3. Identify patterns of sounds such as rhyme and rhythm in poetry.</li> <li>4. Compare and evaluate similar works by different authors in the same genre or theme.</li> <li>5. Compare and evaluate two works by the same author.</li> <li>6. Identify first person and third person point of view.</li> <li>7. Identify and determine the meanings of similes and metaphors.</li> <li>8. Critically read and evaluate text to determine author's purpose and point of view.</li> <li>9. Respond to literature using ideas and details from the text to support reactions and make literary connections.</li> <li>10. Read from and respond to a variety of fiction, poetic and nonfiction texts of increasing complexity for personal enjoyment.</li> </ol>
<b>Writing</b>	<b>A. Types of Writing</b>	The student will compose various pieces of writing.	<ol style="list-style-type: none"> <li>1. Write in a variety of styles to express meaning including:               <ol style="list-style-type: none"> <li>a. descriptive,</li> <li>b. narrative,</li> <li>c. informative,</li> <li>d. friendly letter,</li> <li>e. poetic,</li> <li>f. persuasive,</li> <li>g. thank you note.</li> </ol> </li> </ol>
	<b>B. Elements of Composition</b>	The student will engage in writing, with attention to organization, focus and quality of ideas.	<ol style="list-style-type: none"> <li>1. Write topic sentences.</li> <li>2. Create multiple paragraph compositions that include:               <ol style="list-style-type: none"> <li>a. correct paragraph indentation style,</li> <li>b. an introductory paragraph formulating a thesis;</li> <li>c. supporting evidence that upholds an overall thesis.</li> </ol> </li> <li>3. Use composing processes, including:               <ol style="list-style-type: none"> <li>a. prewriting-planning strategies such as brainstorming, journaling, sketching, listing, outlining and determining audience, purpose and focus.</li> <li>b. drafting-organizing, supporting and putting ideas into sentences and paragraphs;</li> </ol> </li> </ol>

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

			<ul style="list-style-type: none"> <li>c. revising-improving the quality of content, organization, sentence structure and word choice.</li> <li>d. editing-correcting errors in spelling and grammar;</li> <li>e. publishing-producing a document and sharing the writing with the audience.</li> </ul> <ul style="list-style-type: none"> <li>4. Create informative reports, including gathering material, formulating ideas based on gathered material, organizing information, and editing for logical progression.</li> <li>5. Use verbalization (discussions, interviews, brainstorming) to prepare for writing.</li> <li>6. Consider audience in composing texts.</li> </ul>
	<p><b>C. Spelling, Grammar, &amp; Usage</b></p>	<p>The student will apply standard English conventions when writing.</p>	<ul style="list-style-type: none"> <li>1. Compose complete sentences when writing.</li> <li>2. Identify and correct spelling of frequently used words and common homophones.</li> <li>3. Spell roots, suffixes, prefixes, and syllable constructions correctly.</li> <li>4. Apply grammar conventions correctly in writing, including:               <ul style="list-style-type: none"> <li>a. verb tense,</li> <li>b. adverbs,</li> <li>c. prepositions,</li> <li>d. subject and verb agreement</li> <li>e. possessive pronouns.</li> </ul> </li> <li>5. Apply punctuation conventions correctly in writing, including:               <ul style="list-style-type: none"> <li>a. apostrophes</li> <li>b. capitalization of proper nouns</li> <li>c. abbreviations</li> <li>d. sentence beginnings</li> <li>e. commas in a series</li> <li>f. quotation marks.</li> </ul> </li> </ul>
	<p><b>D. Research</b></p>	<p>The student will locate and use information in reference materials.</p>	<ul style="list-style-type: none"> <li>1. Locate information in various reference materials including dictionaries, glossaries, encyclopedias, and the Internet.</li> </ul>

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

Strand	Sub-Strand	Standards	Benchmarks
	<b>E. Handwriting &amp; Word Processing</b>	The student will write legibly and use a keyboard.	<ol style="list-style-type: none"> <li>1. Write legibly in both print and cursive.</li> <li>2. Apply basic keyboarding skills.</li> </ol>
<b>Speaking, Listening &amp; Viewing</b>	<b>A. Speaking &amp; Listening</b>	The student will demonstrate understanding and communicate effectively through listening and speaking.	<ol style="list-style-type: none"> <li>1. Participate in and follow agree-upon rules for conversation and formal discussions in large and small groups.</li> <li>2. Demonstrate active listening and comprehension.</li> <li>3. Give oral presentations to different audiences for different purposes.</li> <li>4. Organize and summarize ideas, using evidence to support opinions or main ideas.</li> <li>5. Perform expressive oral readings of prose, poetry or drama.</li> </ol>
	<b>B. Viewing</b>	The student will critically analyze information found in electronic and print media, and will use a variety of these sources to learn about a topic and represent ideas.	<ol style="list-style-type: none"> <li>1. Read print, view pictures and video images and listen to audio files and identify distinctions in how information is presented in print and on-print materials.</li> <li>2. Begin to make informed judgments about messages promoted in the media, such as those in film, television, radio and newspapers.</li> <li>3. Use print, pictures, audio and video to express ideas and knowledge gleaned from these sources.</li> </ol>

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

## MATH

Strand	Standard	No.	Benchmarks
<b>Number &amp; Operation</b>	Demonstrate mastery of multiplication and division basic facts; multiply multi-digit numbers; solve real-world and mathematical problems using arithmetic.	4.1.1.1	Demonstrate fluency with multiplication and division facts.
		4.1.1.2	Use an understanding of place value to multiply a number by 10, 100 and 1000.
		4.1.1.3	Multiply multi-digit numbers, using efficient and generalizable procedures, based on knowledge of place value, including standard algorithms.
		4.1.1.4	Estimate products and quotients of multi-digit whole numbers by using rounding, benchmarks and place value to assess the reasonableness of results.  <i>For example:</i> $53 \times 38$ is between $50 \times 30$ and $60 \times 40$ , or between 1500 and 2400, and $411/73$ is between 5 and 6..
		4.1.1.5	Solve multi-step real-world and mathematical problems requiring the use of addition, subtraction and multiplication of multi-digit whole numbers. Use various strategies, including the relationship between operations, the use of technology, and the context of the problem to assess the reasonableness of results.
		4.1.1.6	Use strategies and algorithms based on knowledge of place value, equality and properties of operations to divide multi-digit whole numbers by one- or two-digit numbers. Strategies may include mental strategies, partial quotients, the commutative, associative, and distributive properties and repeated subtraction.  <i>For example:</i> A group of 324 students is going to a museum in 6 buses. If each bus has the same number of students, how many students will be on each bus?
	Represent and compare fractions and decimals in real-world and mathematical situations; use place value to understand	4.1.2.1	Represent equivalent fractions using fraction models such as parts of a set, fraction circles, fraction strips, number lines and other manipulatives. Use the models to determine equivalent fractions.

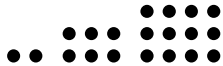

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

	how decimals represent quantities.	4.1.2.2	<p>Locate fractions on a number line. Use models to order and compare whole numbers and fractions, including mixed numbers and improper fractions.</p> <p><i>For example:</i> Locate <math>\frac{5}{3}</math> and <math>1\frac{3}{4}</math> on a number line and give a comparison statement about these two fractions, such as "<math>\frac{5}{3}</math> is less than <math>1\frac{3}{4}</math>."</p>
		4.1.2.3	Use fraction models to add and subtract fractions with like denominators in real-world and mathematical situations. Develop a rule for addition and subtraction of fractions with like denominators.
Strand	Standard	No.	Benchmarks
<b>Number &amp; Operation</b>		4.1.2.4	<p>Read and write decimals with words and symbols; use place value to describe decimals in terms of thousands, hundreds, tens, ones, tenths, hundredths and thousandths.</p> <p><i>For example:</i> Writing 362.45 is a shorter way of writing the sum:</p> <p>3 hundreds + 6 tens + 2 ones + 4 tenths + 5 hundredths,</p> <p>which can also be written as:</p> <p>three hundred sixty-two and forty-five hundredths.</p>
		4.1.2.5	Compare and order decimals and whole numbers using place value, a number line and models such as grids and base 10 blocks.
		4.1.2.6	<p>Read and write tenths and hundredths in decimal and fraction notations using words and symbols; know the fraction and decimal equivalents for halves and fourths.</p> <p><i>For example:</i> <math>\frac{1}{2} = 0.5 = 0.50</math> and <math>\frac{7}{4} = 1\frac{3}{4} = 1.75</math>, which can also be written as one and three-fourths or one and seventy-five hundredths.</p>
		4.1.2.7	<p>Round decimals to the nearest tenth.</p> <p><i>For example:</i> The number 0.36 rounded to the nearest tenth is 0.4.</p>

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

<b>Algebra</b>	Use input-output rules, tables and charts to represent patterns and relationships and to solve real-world and mathematical problems.	4.2.1.1	<p>Create and use input-output rules involving addition, subtraction, multiplication and division to solve problems in various contexts. Record the inputs and outputs in a chart or table.</p> <p><i>For example:</i> If the rule is "multiply by 3 and add 4," record the outputs for given inputs in a table.</p> <p><i>Another example:</i> A student is given these three arrangements of dots:</p> <div style="text-align: center;">  </div> <p>Identify a pattern that is consistent with these figures, create an input-output rule that describes the pattern, and use the rule to find the number of dots in the 10<sup>th</sup> figure.</p>
<b>Strand</b>	<b>Standard</b>	<b>No.</b>	<b>Benchmarks</b>
<b>Algebra</b>	Use number sentences involving multiplication, division and unknowns to represent and solve real-world and mathematical problems; create real-world situations corresponding to number sentences.	4.2.1	<p>Understand how to interpret number sentences involving multiplication, division and unknowns. Use real-world situations involving multiplication or division to represent number sentences.</p> <p><i>For example:</i> The number sentence <math>a \times b = 60</math> can be represented by the situation in which chairs are being arranged in equal rows and the total number of chairs is 60.</p>
		4.2.2.2	<p>Use multiplication, division and unknowns to represent a given problem situation using a number sentence. Use number sense, properties of multiplication, and the relationship between multiplication and division to find values for the unknowns that make the number sentences true.</p> <p><i>For example:</i> If \$84 is to be shared equally among a group of children, the amount of money each child receives can be determined using the number sentence <math>84 \div n = d</math>.</p> <p><i>Another example:</i> Find values of the unknowns that make each number sentence true:</p> <p><math>12 \times m = 36</math>  <math>s = 256 \div t</math></p>
<b>Geometry &amp;</b>	Name, describe, classify and sketch polygons.	4.3.1.1	Describe, classify and sketch triangles, including equilateral, right, obtuse and acute triangles. Recognize triangles in various contexts.

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

<b>Measurement</b>		4.3.1.2	Describe, classify and draw quadrilaterals, including squares, rectangles, trapezoids, rhombuses, parallelograms and kites. Recognize quadrilaterals in various contexts.
	Understand angle and area as measurable attributes of real-world and mathematical objects. Use various tools to measure angles and areas.	4.3.2.1	Measure angles in geometric figures and real-world objects with a protractor or angle ruler.
		4.3.2.2	Compare angles according to size. Classify angles as acute, right and obtuse.  <i>For example:</i> Compare different hockey sticks according to the angle between the blade and the shaft.
		4.3.2.3	Understand that the area of a two-dimensional figure can be found by counting the total number of same size square units that cover a shape without gaps or overlaps. Justify why length and width are multiplied to find the area of a rectangle by breaking the rectangle into one unit by one unit squares and viewing these as grouped into rows and columns.  <i>For example:</i> How many copies of a square sheet of paper are needed to cover the classroom door? Measure the length and width of the door to the nearest inch and compute the area of the door.
		4.3.2.4	Find the areas of geometric figures and real-world objects that can be divided into rectangular shapes. Use square units to label area measurements.
Use translations, reflections and rotations to establish congruency and understand symmetries.	4.3.3.1	Apply translations (slides) to figures.	
	4.3.3.2	Apply reflections (flips) to figures by reflecting over vertical or horizontal lines and relate reflections to lines of symmetry.	
	4.3.3.3	Apply rotations (turns) of 90° clockwise or counterclockwise.	
	4.3.3.4	Recognize that translations, reflections and rotations preserve congruency and use them to show that two figures are congruent.	
<b>Data Analysis</b>	Collect, organize, display and interpret data, including data collected over a period of time and data represented by fractions and decimals.	4.4.1.1	Use tables, bar graphs, timelines and Venn diagrams to display data sets. The data may include fractions or decimals. Understand that spreadsheet tables and graphs can be used to display data.

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

## SCIENCE

Strand	Sub-Strand	Standard	No.	Benchmarks
<b>The Nature of Science and Engineering</b>	<b>Practice of Engineering</b>	1. Engineers design, create and develop structures, processes and systems that are intended to improve society and may make humans more productive.	4.1.2.1.1	Describe the positive and negative impacts that the designed world has on the natural world as more and more engineered products and services are created and used.
		2. Engineering design is the process of identifying problems, developing multiple solutions, selecting the best possible solution, and building the product.	4.1.2.2.1	Identify and investigate a design solution and describe how it was used to solve an everyday problem. <i>For example:</i> Investigate different varieties of construction tools.
			4.1.2.2.2	Generate ideas and possible constraints for solving a problem through engineering design. <i>For example:</i> Design and build an electromagnet to sort steel and aluminum materials for recycling.
			4.1.2.2.3	Test and evaluate solutions, considering advantages and disadvantages of the engineering solution, and communicate the results effectively.
	<b>Interactions Among Science, Technology, Engineering, Mathematics, and Society</b>	3. The needs of any society influence the technologies that are developed and how they are used.	4.1.3.3.1	Describe a situation in which one invention led to other inventions.
<b>Physical</b>	<b>Matter</b>	1. Objects have observable properties that can be measured.	4.2.1.1.1	Measure temperature, volume, weight and length using appropriate tools and units.

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

<b>Science</b>		2. Solids, liquids and gases are states of matter that have unique properties.	4.2.1.2.1	Distinguish between solids, liquids and gases in terms of shape and volume. For example: Water changes shape depending on the shape of its container.
			4.2.1.2.2	Describe how the states of matter change as a result of heating and cooling.
	<b>Energy</b>	1. Energy appears in different forms, including heat and electromagnetism.	4.2.3.1.1	Describe the transfer of heat energy when a warm and a cool object are touching or placed near each other.
			4.2.3.1.2	Describe how magnets can repel or attract each other and how they attract certain metal objects.
			4.2.3.1.3	Compare materials that are conductors and insulators of heat and/or electricity. For example: Glass conducts heat well, but is a poor conductor of electricity.
		2. Energy can be transformed within a system or transferred to other systems or the environment.	4.2.3.2.1	Identify several ways to generate heat energy. For example: Burning a substance, rubbing hands together, or electricity flowing through wires.
			4.2.3.2.2	Construct a simple electrical circuit using wires, batteries and light bulbs.
			4.2.3.2.3	Demonstrate how an electric current can produce a magnetic force. For example: Construct an electromagnet to pick up paperclips.
	<b>Earth and Space Science</b>	<b>Earth Structure and Processes</b>	3. Rocks are Earth materials that may vary in composition.	4.3.1.3.1
4.3.1.3.2				Describe and classify minerals based on their physical properties. For example: Streak, luster, hardness, reaction to vinegar.
<b>Interdependence Within the Earth Systems</b>		3. Water circulates through the Earth's crust, oceans and atmosphere in what is known as the water cycle.	4.3.2.3.1	Identify where water collects on Earth, including atmosphere, ground and surface water, and describe how water moves through the Earth system using the processes of evaporation, condensation and precipitation.

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

	<b>Human Interactions with Earth Systems</b>	1. In order to improve their existence, humans interact with and influence Earth systems.	4.3.4.1.1	Describe how the methods people utilize to obtain and use water in their homes and communities can affect water supply and quality.
<b>Life Science</b>	<b>Interactions with Earth Systems</b>	2. Microorganisms can get inside one's body and they may keep it from working properly.	4.4.4.2.1	Recognize that the body has defense systems against germs, including tears, saliva, skin and blood.
			4.4.4.2.2	Give examples of diseases that can be prevented by vaccination.

## SOCIAL STUDIES

<b>Strand</b>	<b>Sub-Strand</b>	<b>Standard</b>	<b>Benchmarks</b>	<b>Examples</b>
<b>U.S. History</b>	<b>A. Pre-history through 1607</b>	The student will understand that large and diverse American Indian nations were the original inhabitants of North America.	1. Students will compare ways of life of Indian Nations from different regions of North America.	1. Iroquois, Cherokee, Ojibwe, Dakota, Hopi, Navajo, Yakama
	<b>B. Pre-history through 1607</b>	The student will demonstrate knowledge of European exploration of the North American continent and the resulting interaction with American Indian nations.	1. Students will identify key European explorers and how their voyages led to the establishment of colonies. 2. Students will know and explain that interactions between American Indian tribes and European explorers had positive and negative impacts.	1. Christopher Columbus, Jacques Cartier, Henry Hudson, Ponce de Leon, John Smith 2. Trading relationships, wampum, smallpox

# MINNESOTA ACADEMIC STANDARDS GRADE 4

Revised 11/09

	<b>D. Political Unrest and the American Revolution 1763-mid-1791</b>	The student will demonstrate an understanding of the causes and course of the American Revolution.	<ol style="list-style-type: none"> <li>1. Students will understand issues and events that led to the American Revolution, and analyze how these events affected the move toward independence from Britain.</li> <li>2. Students will understand the principles of the Declaration of Independence, including inalienable rights and self-evident truths.</li> <li>3. Students will analyze the roles of key individuals and political leaders in the American Revolution.</li> <li>4. Students will know and understand key factors and events contributing to the defeat of the British.</li> </ol>	<ol style="list-style-type: none"> <li>1. The Proclamation of 1763, the Stamp Act, the Boston Tea Party, the Intolerable Acts</li> <li>3. Samuel Adams, Benjamin Franklin, Patrick Henry, Crispus Attucks, Abigail Adams, Thomas Jefferson, Thomas Paine, George Washington, Francis Marion, John Hancock, Nathan Hale</li> <li>4. Differences in warfare style, the Committees of Correspondence, the Battles of Trenton, Saratoga, Yorktown</li> </ol>
		The student will demonstrate knowledge of how the principles of the American Revolution became the foundation of a new nation.	<ol style="list-style-type: none"> <li>1. Students will know and understand basic principles of the new government established by the Constitution of the United States.</li> <li>2. Students will know reasons why the United States developed the Constitution, including the debates and compromises that led to the final document.</li> </ol>	<ol style="list-style-type: none"> <li>1. Separation of powers, three branches of government, checks and balances</li> <li>2. Interstate commerce, Shay's Rebellion, 3/5 Compromise, Bill of Rights</li> </ol>
<b>Strand</b>	<b>Sub-Strand</b>	<b>Standard</b>	<b>Benchmarks</b>	<b>Examples</b>
<b>U.S. History</b>	<b>E. Growth and Westward Expansion, 1801-1861</b>	The student will demonstrate knowledge of western expansion, conflict, and reform in America.	<ol style="list-style-type: none"> <li>1. Students will examine the processes that led to the territorial expansion of the United States including wars and treaties with foreign nations and Indian nations, the Mexican-American War, annexation, Louisiana Purchase and other land purchases, and the removal of American Indians to reservations.</li> <li>2. Students will analyze the impact of inventions and technologies on life in America, including the cotton gin, the steamboat, and the telegraph.</li> </ol>	<ol style="list-style-type: none"> <li>1. The acquisitions of Florida, Texas, Oregon, and California, the Mormon Trail, frontier families</li> <li>2. The reaper, the steam locomotive, construction of canals, "King Cotton" and the expansion of slavery</li> </ol>
	<b>F. Civil War and Reconstruction,</b>	The student will demonstrate knowledge of the causes of the Civil War.	<ol style="list-style-type: none"> <li>1. Students will identify and analyze the main ideas of the debate over slavery, abolitionism, states' rights, and explain</li> </ol>	<ol style="list-style-type: none"> <li>1.
